# HURRICANE DRYERS

For Practically Every Textile Material  
Fire-Proof—Safe—Efficient—Economical

Automatic Raw Stock Dryer

The "Hurricane"  
Line includes, Automatic  
Stock Dryers, Single and  
Multiple Apron Types  
for Wool, Cotton, Lint-  
ers, Hair, Flax and  
Rags.

Automatic Yarn Dry-  
ers for Cotton, Worsted,  
Jute, Silk and Artificial  
Silk Yarn.

Truck Dryers for Yarn  
dyed in the skein or on  
the cone.

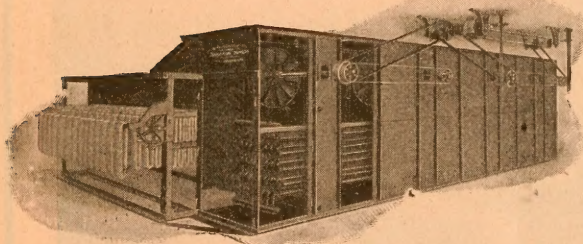

Automatic Yarn Dry-  
ing and Conditioning  
Machines for all kinds  
of yarn.

Automatic Looping and  
Drying Machines for  
Underwear, Turkish  
Toweling, Silk Piece  
Goods, Plushes, etc.

Hosiery Dryers—Au-  
tomatic and Drawer  
Types.

Machines are built in  
many standard sizes and  
styles or we will build  
special machines to suit  
unusual requirements.

## Direct Warper for Large Beams

This warper will make four warps at one time on beams fifteen inches in diameter and six inches wide, a less number of wider beams.

The driving heads are driven independent of each other, one can be stopped, turned back to find a broken end without interfering with the others.

It can be stopped and started slowly by hand or foot, from front, back or side. It has a variable speed.

It has a short traverse motion for the warp to keep the ends piling up in ridges a comb reed can be used.

*Price \$385.00 F. O. B. Paterson*

## TEXTILE MACHINERY

Established 1906

# REFINEMENT

**N**EW DEPARTURE BALL BEARINGS refine and improve textile machinery to a remarkable degree. A few of the advantages are:—

*A cleaner product*—no oil on the fabric, because of more efficient packing and enclosure.

*Less attention necessary*—need less oiling, a very important matter where bearings are inaccessible.

*Power Saving*—small on each spindle, but considerable in the aggregate—many H. P. a year per plant.

*More rigid and accurate assembly*—insuring a better and more uniform product.

# Sargent Wool Preparatory Machinery

The Model 34 Wool Washing Machine gives you confidence in your scouring room for Quality and Quantity production. One of the important features in this model: it is so designed that the liquor is constantly clarified in both the bowl and settling tank.

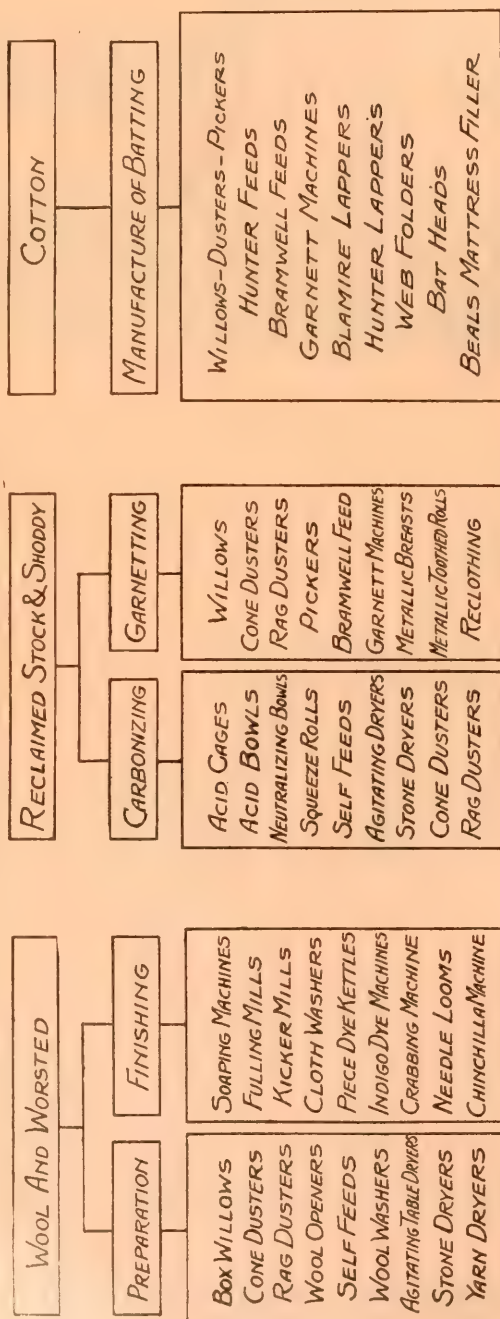

Sargent Dryers built in accordance with approved drying practice. They dry by air circulation, preserving the natural softness and composition of the fibre. They operate with lowest steam and power consumption.

Wool Washing, Drying, Burring, Dusting, Carbonizing Machinery, Cotton Dryers, Yarn Conditioning Machines, Back Washers, Automatic Feeders, Wool Openers, Automatic Bagging Machines.

DU PONT AMERICAN INDUSTRIES

As a logical result of our development in the explosive and chemical industries we are now undertaking the manufacture of synthetic dyestuffs and kindred products in a broad and comprehensive way.

The explosive and coal tar dye industries are closely allied. Both require intermediates which we manufacture in a large way; both are highly scientific and thoroughly developed and both require large technical and commercial organizations.

We start with (1) the necessary raw materials, products of this country, therefore not dependent upon Europe, (2) a chemical and engineering organization, second to none in magnitude and scientific attainment, (3) unequalled plant and laboratory facilities, and (4) an adequate commercial organization.

The construction of our dye plants is progressing satisfactorily and on schedule time. Some of the more important ones are now in commission; others will follow.

Back of our entry into the dyestuffs industry is the compelling force of the country's needs; if as the result of the combined efforts of all, the United States can in time become self-contained, the effort will have been well worth while.

## The Textile Fabric Tester

*The only machine that gives the bursting strength in pounds per sq. in. by a simple operation.*

## The Jumbo Mullen Tester

Is extensively used by hosiery and underwear manufacturers. It is equally good for testing textile fabrics of all kinds.

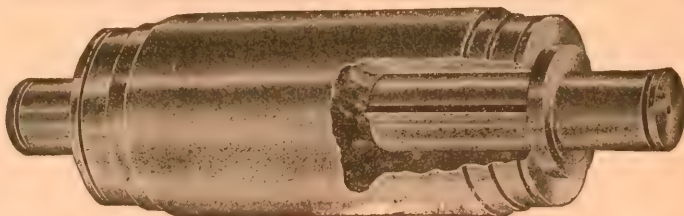

### Here are Proofs of Quality

1. The U. S. Government adopted Mullen Testers as the standard for testing paper.
2. The R. R. Freight Classification Committees adopted Mullen Testers as their standard. Every fibre case shipped bears a stamp to show that it will stand "a resistance of ....pounds to the sq. in. [Mullen test]."

Ask for descriptive matter and names of

### TEXTILE MILLS

using the Jumbo Mullen Tester

## Perkins Guaranteed Calendar Rolls

For Finishing Textile Goods, Bleaching and Dyeing Cloth, etc.,

are filled by a patented mechanical process, which insures perfect uniformity in density, a feature which is impossible with the ordinary hand-made rolls. The line includes: Paper Rolls, Husk Rolls, Cotton Rolls and Combination Cotton and Husk Rolls. All are fitted with Perkins' Patented Spline, which prevents slipping or turning around the shaft.

## For All Mill Needs—Get A Perkins Ventilating Fan

*It is Superior Because:*

- (1) The frames, drums, arms, shafts, etc., are STEEL—not iron.
- (2) The blades are adjustable—can be set to any angle—to blow in or out.
- (3) It can be run at high speed—and will run longer without oiling than any other fan on the market—on account of the *self-oiling* journal boxes.

Power Transmission Systems built and installed for driving any fan in any position.

# STEPHENSON

## Bar Belt Dressing Prevents

## Waste of Power and Fuel

Because it stops the belt from slipping and causes it to transmit all the Power without being made so tight as to cause unnecessary friction.

This Registered Trademark  
Is Your Protection

It appears on each stick of Genuine Stephenson Bar Belt Dressing—the dressing that has held to its uniform quality for 29 years.

This belt dressing surpasses liquid preparations, for there is absolutely no waste in applying it to the belt, and it is put up in sticks or solid form, so that it can be carried about in the tool-box. For these reasons—

**1 Pound Lasts as Long as 2 Pounds of  
Any Liquid or Semi-Liquid Dressing.**

There are two brands, Red Label for leather belts, Green Label for rubber, canvas, or balata belts.

*Write us for Price List and Free 1-2 lb. Sample.*

"JACOBS" XXCY PICKER

Only pure oak bark tanned leather is used in this quality of picker, and it is treated by a secret process, giving a maximum of resiliency in the cushion, or body where the shuttle strikes, which, it can be readily seen, represents the vital point of value in a loom picker.

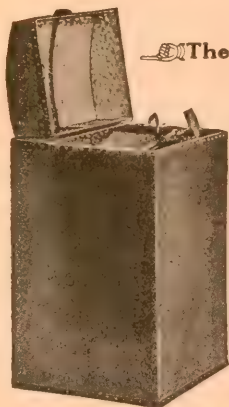

The construction of this picker commends itself strongly. We should like to send all the samples you can use.

# Expert Engineering Advice For Textile Plants

The design and general layout of every textile mill plays no little part in its productive capacity when completed.

Should you plan a new mill or any changes in your existing buildings it is highly desirable to select an architect or engineer who has had abundant experience in textile mill problems.

This organization is composed of men picked because of their exceptional experience in designing many industrial buildings. They can render you expert engineering service.

## WILMINGTON FIBRE

You save money and get better results by substituting fibre for paper, cardboard, wood, bone, ivory, glass, porcelain, iron, brass, copper, leather, rubber composition and other substances.

Fibre insulates. It machines easily. It is not brittle and has qualities of its own which cannot be duplicated.

If you *can* use fibre you *should* use it. A request to us will tell you how and why it has over a million uses. In sheets, tubes, rods, black, red or gray.

Anything in fibre, in any quantity, on short notice.

**Wilmington Fibre Specialty Co.,** WILMINGTON

# Buyers' Index

## FOR

# Machinery and Mill Supplies

The following Classified Index of Advertisers in this Directory contains the names of nearly all the principal builders of Textile Machinery and Dealers in Mill Supplies. The advertisements of these concerns can be found by referring to the Alphabetical Index to Advertisers, Page 101. Any buyers who are unable to find in this index the machinery or supplies desired, are invited to communicate with the publishers, who can in all probability refer them to the proper sources, or they may find what is wanted in the Buyers' Index of the Textile World Journal.

# KLAUDER - WELDON

ORIGINATORS, PIONEERS and  
LEADERS IN THE MANUFACTURE OF

**Dyeing, Bleaching and Scouring Machines**

THE fact that Klauder-Weldon Machines have always been recognized as the standard of economic efficiency in Dyeing, Bleaching and Scouring is sufficient reason to believe that they have merits that justify your most careful investigation.

Klauder-Weldons are used in over 1000 textile plants and are built to handle textiles in all forms and processes.

*Sold On Sixty Days Trial*

## Oilless Bearings

are made of wood chemically treated. They do away with oil, lost time, excessive depreciation, make a cleaner factory, and reduce fire risks.

They are adapted for loose pulleys, friction clutches, counter-shafts, fans, confectioners, electrical, harvesting, insulating paper-box, printing, shoe, spinning, textile, weaving and winding machinery.

Write us and find out just what they will do for you.

## A Union Special Machine

For Every Sewing Operation

**N**O matter what kind of garments you make—no matter how plain or fancy—there's a Union Special Machine for every sewing operation, specially designed to perform that operation in the speediest, most thorough, and most efficient manner.

If you're using any of those machines you'll want to know about the others that pertain to the manufacture of your line—because you know the built-in quality of Union Special products, and the unsurpassed work they do.

If you haven't used them, you haven't yet experienced that complete satisfaction to which thousands of Union Special Machine users testify—the satisfaction of entire dependability, perfect workmanship, and maximum service in your equipment.

In either case, write for complete information regarding the machines in which you are interested. When you know more about them you'll use them—because you can't duplicate Union Special quality at **ANY** price. And you'll like them even better when you get them to work for you.

# WILLIAM FIRTH

Sole Importer of

**Asa Lees & Co., Limited**

## TEXTILE MACHINERY

of every description for Cotton, Wool and Worsted

*Sole Agent for United States  
and Canada for*

**Joseph Stubbs**

Gassing, Winding, and Reeling  
Machinery for Cotton, Worsted  
and Silk

**Geo. Orme & Co.**

Patent Hank Indicators, etc.

**William Tatham, Limited**

Cotton Waste Machinery

**Goodbrand & Co.**

Cloth and Yarn Testing Apparatus

*Selling Agent for*

**Joseph Sykes Bros.**

Hardened and Tempered Steel Card  
Clothing for Cotton

**Dronsfield Bros., Limited**

Emery Wheel Grinders, Emery  
Fillet and Flat Grinding  
Machines

*Manufacturer of*

**“Firth Vacuum Specialties”**

**For Textile Mills**

**Broomless Floor Sweeper**

**PORTABLE**

**Dustless Card Stripping Apparatus**

**PORTABLE**

**D. C. S. & C. S.**

**Dustless Card Stripping and Cleaning System**

**FROM CENTRAL STATION**

**General Machinery Cleaning**

**FROM CENTRAL STATION**

Indispensable on Combing, Ribbon Lap, Knitting and Cordage  
Braiding Machines

*PROMPT ATTENTION GIVEN TO INQUIRIES*

# WILLIAM FIRTH

**200 Devonshire Street, Boston, Mass.**

There is a way to stop the waste of energy;  
There is a way to save much of the coal  
used in manufacturing;

There is a way to reduce wear and tear in  
manufacturing equipment;

There is a way to speed up production  
even faster;

There is a way to increase the wealth of  
the nation's industries;

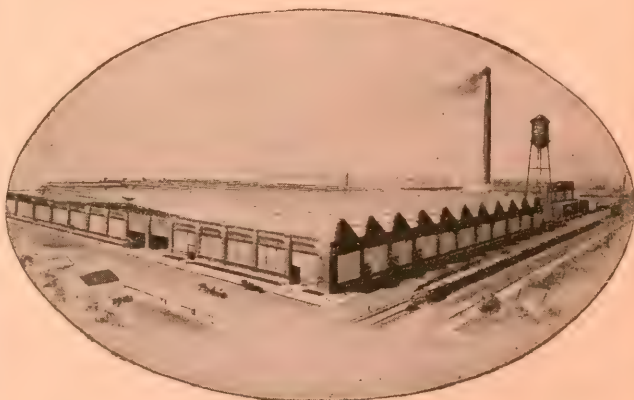

That way is to eliminate friction.

The nearest approach to the elimination of  
friction is the ball bearing.

U. S. Ball Bearing Mfg. Co.

## RICE'S MILL WHITE

The WHITE that remains white  
LONGEST

No one wishes to spend the money for painting the ceilings and walls of his plant with a white finish that turns yellow and therefore soon needs re-painting.

"BARRELED SUNLIGHT"—Rice's Gloss Mill White—is the *only* oil paint for plant interiors that gives a glossy, tile-like finish.

Repeated tests have shown without a single exception that Rice's remains white longer than any other.

It is made by a process over which we have exclusive control, and no one else

has any knowledge of the process or the right to obtain it.

This product which we originated differs from all the numerous imitations. The essential principle of the process enables us to avoid the use of Varnish, *thus preventing cracking*, and to also overcome the marked tendency to yellowing which is an invariable feature of the imitations.

There is no substitute for "Barreled Sunlight"—Rice's Gloss Mill White.

Users are protected by our Guarantee.

## EXPLANATION OF MAPS AND GENERAL ARRANGEMENT.

---

The Directory is illustrated by copyrighted maps of the principal manufacturing states east of the Mississippi River, and the Provinces of Quebec and Ontario, showing the location of the textile mill cities and towns. These maps are engraved especially for the OFFICIAL AMERICAN TEXTILE DIRECTORY, and are arranged with special reference to the convenience of those desiring to reach the textile establishments. The Southern, Western, and Central States are arranged in groups; most of the New England and Middle States are shown with separate maps for each State. Under each State heading at the top of right hand pages reference is made to the page of map for that State.

The State maps are divided into square sections, designated by letters and numbers. In the body of the Directory, after the name of the city or town, the square in which it is located on the map is designated thus, in the case of Passaic, N. J.—“Passaic, D-9;” meaning that Passaic will be found in the horizontal section D and the vertical section 9 of the New Jersey map.

Following the letters indicating the location of the town will be found abbreviations of the railroad connections, which will enable one to refer intelligently to any railway guide for his train connections. If the town is not on the railroad, the nearest railroad station is given and the distance from it. The population of the place follows the railroad abbreviations.

It should also be carefully noted that each square is a certain number of miles. Under the title of each map will be found the scale of miles to each square in that map. In this way distances can be very closely approximated, and railroad fares estimated on computation of about 2½ cents per mile in the Eastern States, and 2½ to 3 cents in Southern and Central States for local travel.

The classification of the mill section of the Directory is first, alphabetically by States; second, alphabetically by towns and cities in each State; third, alphabetically by name of mill, under its proper post office address. In some instances the railroad and freight station is not the same as the post office address, and in these cases the proper railroad station is designated.

---

## EXPLANATION OF ABBREVIATIONS.

---

Under each city or town are grouped *all* the textile mills in that place, without regard to kind of goods made. The kind of mill, *i.e.*, whether cotton, woolen, etc., is shown by the bold face letter at the right.

In order that the general character of the mill may be ascertained without closely reading the data concerning it, a system of abbreviations has been employed as follows:—

|                             |                                 |                                      |
|-----------------------------|---------------------------------|--------------------------------------|
| <b>C</b> means cotton mill. | <b>W</b> means woolen mill.     | <b>S</b> means silk mill.            |
| <b>J</b> means jute mill.   | <b>K</b> means knitting mill.   | <b>D</b> means dyeing establishment. |
| <b>Bl</b> means bleachery.  | <b>F</b> means finishing works. | <b>Pr</b> means print works.         |
|                             | <b>Fl</b> means flax mill.      |                                      |

**POWER.** The kind of power is designated—steam, number of boilers; water, number of water wheels, or electric, generate or buy.

**W. W.** means water wheels.

**DYE.** If the mill has dyeing facilities, the word “dye” is used.

**S. AGTS.** means selling agents. The other abbreviations will be easily understood.

**BUYER.** In most instances the name of the man who does the buying is given for the larger mills. In smaller mills, or those operated by individuals, the principals usually buy.

**POP.** Population.

# SHORTAGE OF LABOR

now makes the Revolvator indispensable. Many firms having one of these before the war now have a great many. The Revolvator is not only used in storerooms where it releases men for other work, but it is now being used wherever there is heavy lifting to be done, such as loading heavy goods on trucks, lifting overhead motors, repairing overhead shafting, lifting heavy drums of chemicals and various lifting requirements in machine shops. Save time, labor and floor space by using a

# Permutit

TRADE MARK  
REG. U. S. PAT. OFF.

zero  
NO  
HARDNESS  
water

*The Water Softening Filter  
to Zero Hardness*

Gives you maximum savings in soap, dyes, labor, time, coal and power cost—because “Permutit” alone can give you “zerowater,” free from all the lime and magnesium which cause waste and run up costs in textile processes. Don't compromise with the hard water evil. Use “Permutit,” and be sure.

# Bring Us Your Dyestuff Problems

The application of dyestuffs to textiles is as important as their production. The technique of this branch of the color industry has for years commanded the best talent among those dyestuff distributors who have catered to the highest class of trade.

An intimate knowledge of the possibilities of every dyestuff is often necessary to meet the particular requirements of the consumer. Dyeing is a chemical, not a mechanical process, and the variation of local conditions, due to differences in quality of water, steam and chemicals, makes the dyehouse problem an individual one.

Such problems are welcomed by the technical department of this company, which is manned by chemists who have been picked because of their knowledge, practical experience and demonstrated ability. We have long maintained well-equipped laboratories at our different offices for this purpose, and invite inquiries and extend, without any obligation on the part of our customers, our services to all who stand in need of them.

# DUXBAK

—a good belt to use any-  
where, and especially in

## Textile Mills

When it comes to a wet drive there is simply no argument. That's where DUXBAK lives. Put it on your dyeing machines, bleaching machines, extractors; washers, scourers, every moisture-exposed drive.

But don't lose sight of this—the same water-shedding qualities make DUXBAK the super-belt for *every* drive. The clinging surface eliminates slip. The "dressing" is built in so the belt is always pliable.

Cotton, Woolen, Knitting and Silk Mills will find DUXBAK the best for their uses.

### Every Branch listed below carries a stock of belting

|                                                                             |                          |

# "Proctor"

# DRYERS

AUTOMATIC DRYER  
FOR COTTON, WOOL, ETC.

TO the "Proctor" System of re-circulating vast quantities of heated air, is due much of the efficiency and economy of the "Proctor" Dryers for Textiles.

This means less heat—only enough cool air is admitted to equalize the too moist air exhausted.

The material is dried without baking or harshness.

There is a "Proctor" for every need of the Textile Trade—Raw Stock, Yarns, Knit Goods in the piece, Turkish Toweling and Hosiery.

# Safeguard Your Shipments

Get your shipments through promptly and without loss or error by marking them with neat, plain, bold stencil letters cut on the Ideal Stencil Machine. You can cut a stencil quickly and use it many times. Quicker and safer than hand-marking, tags or labels.

## *The* IDEAL STENCIL MACHINE

**SPEEDY**

**THE MACHINE THAT SAFEGUARDS YOUR SHIPMENTS**

The ideal stands foremost. The smooth, speedy cutting action—the self-starting paper carriage, visibility—accuracy—easy operation, all make the Ideal superior from every standpoint. Used by Ford, Armour, Edison, General Electric, United States Government and thousands of other shippers, large and small.

You may test the machine in your own factory—safeguard your shipments—without cost or obligation. A demonstration costs you nothing, not even the supplies you use.

Write today for our booklet on shipping efficiency, "Safeguarding Your Shipments" and sample stencils, they're free. Write NOW.
